AYURVEDIC THERAPIES

Ayurveda is a Sanskrit word that means “The Science of Life”. Originating in India more than 5,000 years ago, it is considered to be the oldest healing science. All the following treatments begin with a consultation to determine your specifiedosha (Vata, Pitta, and Kapha). Treatments are about bringing the body back to balance, its natural state, and perfect health.

Pronunciation of Ayurvedic Therapies

- Ayurvedic pronounced -I-YUR-VA-DA
- Shirodhara pronounced -SHEAR-A-DARA (Third eye warm oil pour)

Following a face and scalp massage, the wrap is removed and the body mask is exfoliated off. A luxurious, oil application follows. Completing the experience is a mini shirodhara with scalp and hair treatment and a soothing head and face marma energy balancing treatment.
